DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Kitazawa et al. (U.S. Patent No. 6,174,093 B1).

Kitazawa et al. discloses the method and apparatus for driving a motor forward to perform mirror release operation from column 19 line 66 to column 20 line 38; driving the motor in reverse to switch to a shutter charge system and then performing mirror-shutter charge at column 20 line 47 to line 67; driving the motor in reverse to switch to the film wind system and perform film winding is described at column 21 lines 1-27; driving the motor forward for a predetermined time to switch the motor drive system to the rewind system upon detecting no more frames available for exposure and then putting the motor into reverse again for rewinding is described at column 22 lines 6-10 and then the reader goes back to the description at column 21 line 48 to column 22 line 50. Thus, claims 1, 3, 5, and 6 are fully met by Kitazawa et al. The limitations specified in claims 2 and 4 are met by the first clutch mechanism disclosed by Kitazawa et al. at column 9 line 40 to column 20 line 11 and at other places.
